

Hassan A. Tetteh, MD, MBA, FACS, FACHE
Captain, Medical Corps, United States Navy
Chief Medical Informatics Officer

Hassan A. Tetteh is an Associate Professor of Surgery at the Uniformed Services University of the Health Sciences, adjunct faculty at Howard University College of Medicine, and served as Division Lead for Futures and Innovation at Navy Medicine's Headquarters, Bureau of Medicine and Surgery. He was a Robert Wood Johnson Health Policy Fellow from 2012-13, assigned to the U.S. Congress, Congressional Budget Office, (CBO), and served as Assistant Deputy Commander for Healthcare Operations and Strategic Planning at Walter Reed National Military Medical Center (WRNMMC) during its integration. Currently, Tetteh is a Thoracic Staff Surgeon for MedStar Health and WRNMMC and most recently served as Command Surgeon for the National Defense University.

Tetteh served as Ship's Surgeon and Director of Surgical Services for the USS Carl Vinson (CVN 70) battle group in support of OPERATION IRAQI FREEDOM in 2005. In 2011, he deployed as a trauma surgeon to Afghanistan's Helmand and Nimroz provinces in support of OPERATION ENDURING FREEDOM with II Marine Expeditionary Forces and most recently supported special JOINT FORCES MISSIONS to South America, the Middle East, the South Pacific, Australia, and Africa. He earned both the Surface Warfare Medical Department Officer and Fleet Marine Force Qualified Officer designations, and his military honors include two Meritorious Service Medals and the Joint Service Commendation Medal. Tetteh is the author of the novel *Gifts of the Heart* and has published articles on surgical innovation, health information technology, ethics, wounded warriors, and process improvement. He also serves on the board of directors for the Brooklyn, New York-based Arthur Ashe Institute for Urban Health, Fayetteville, Arkansas based Champions for Kids, and Miriam's Kitchen a Washington, D.C. based nonprofit that works to end chronic homelessness.

At the CBO, as a Visiting Scholar with the Health, Retirement, and Long-Term Analysis Division, Tetteh provided a clinical perspective, working with different teams of analysts on a variety of health policy projects. Individually, he contributed to studies related to the changing cost of chronic conditions, the costs of obesity and their effects on the federal budget, supply-side modeling of health workforce issues, and the impact of health information technology on the federal budget. He also analyzed policy proposals aimed at achieving savings in Medicare.

A native of Brooklyn, New York, Tetteh received his B.S. from State University of New York (SUNY) at Plattsburgh, his M.D. from SUNY Downstate Medical Center, his M.P.A. from Harvard's Kennedy School of Government, M.B.A. from Johns Hopkins University Carey Business School, and M.S. in National Security Strategy with a concentration in Artificial Intelligence from the National War College. He completed his thoracic surgery fellowship at the University of Minnesota and advanced cardiac surgery fellowship at Harvard Medical School's Brigham and Women's Hospital in Boston. Tetteh is a Certified Professional in Healthcare Information and Management, board certified in thoracic surgery, general surgery, and clinical informatics, and healthcare management, and is a Fellow of the American College of Surgeons and Fellow of the American College of Healthcare Executives.
