HISTORY OF THE SOCIETY OF BLACK ACADEMIC SURGEONS

The Society of Black Academic Surgeons (SBAS) was founded in 1989. Its goal is to stimulate academic excellence among its members by providing a forum of scholarship in collaboration with the leading Departments of Surgery in the U.S. It encourages and supports professional development of black surgical residents and attempts to recruit the best and brightest medical students into a career in surgery.

The annual meetings of SBAS, attended by members as well as numerous residents and students, provide outstanding programs in both the science and practice of surgery. The first Annual Meeting was hosted by the late Dr. David Sabiston at Duke University. Annual meetings since then have been hosted by Departments of Surgery throughout the U.S., including Harvard University (1991, 2001), University of California at Davis (1993), University of Texas Medical Branch at Galveston (1994), University of North Carolina at Chapel Hill (1995), University of Colorado at Denver (1996), SUNY Buffalo (1997), Howard University (1998, 2004, 2012), University of Louisville (1999), Charles R. Drew University of Medicine and Science (2000), Morehouse School of Medicine (2002), University of Alabama (2003), University of Pittsburgh (2005), University of Cincinnati (2006), Rush University Medical Center (2007), Cleveland Clinic (2008), Washington University in Seattle (2009), Duke University (2010), Johns Hopkins School of Medicine (2012), and University of Mississippi (2013).

SBAS is governed by an Executive Committee and has more than 200 members throughout the United States. Membership is not restricted by race; the criteria for membership require that the prospective member be a “reputable surgeon or surgical investigator who occupies a faculty position in a university department of surgery or free-standing surgical residency program.” In addition to its Annual Meeting, a website (www.SBAS.net) has been established to improve communication with its constituency and persons interested in the organization. The *American Journal of Surgery* is the official publication of SBAS.
